 <p>Water & Environment</p>	 <p>Industrial & Materials</p>	 <p>Veterinary</p>	 <p>Microbiology</p>	 <p>Plant Science</p>

Welcome to the Bio-Strategy Brand Index. Here you will find the key brands and products available in Australia.

Bio-Strategy - Part of DKSH Group - offers a comprehensive range of products for your laboratory research, analysis, and production. Our portfolio includes technical instrumentation, high quality laboratory equipment, consumables, chemicals as well as reagents & assays for many applications.

Bio-Strategy was founded in 2003 and in 2023 became part of DKSH Group. It is an established ISO9001:2015 accredited distributor delivering technology to the Scientific Community throughout Australasia.

The Bio-Strategy team shares a passion for science and, in partnership with world leading suppliers, we offer our customers solutions to advance their research and work.

From our extensive product range we provide quality technology to customers in numerous market sectors including: Diagnostic Laboratories, Academic Research, Government Institutes, Applied Testing and Industry. Our specialists can tailor solutions to fit your research and business needs.

Bio-Strategy's head office is located in Melbourne with local teams throughout the country. Our skilled application scientists, sales specialists, service engineers, and our entire team of more than 130 staff across Australasia are available to support you and your laboratory requirements.

Richard Speight PhD
General Manager, Technology
Australia & New Zealand

AUTOMATION - Sample Preparation & Processing

Automated liquid handlers for sample preparation, with a myriad of dedicated applications, from low thru-put small footprint of the ML prep to higher thru-put systems of the STARline and Vantage.

STARline

Grenova automated tip washers to accommodate most industry brand tips ensuring sustainability.

TipNovus Tip Washer

ML Prep

Nimbus

VANTAGE

AUTOMATION - Automatic Storage & Retrieval

Automated storage management solutions, decappers and consumables for safe storage of patient samples/biobanking with full traceability, from ambient down to -185°C with Askion's automated LN2 based cyro-storage.

Askion HS200S

VERSO M and L series

SAM HD

VERSO Q series

BioS

LabElite Decappers

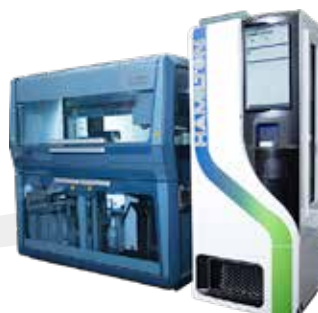

LabElite DeFroster

AUTOMATION - Integration for Total Workflows

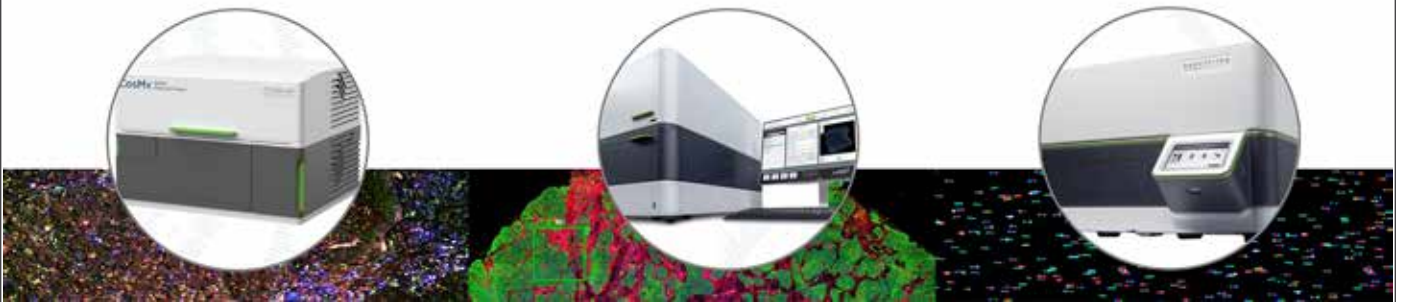

Integrations with automated sample processing and storage as well as with other 3rd party devices for Total Workflow Solutions with Biosero Green Button Go Software Scheduling.

Green Button Go™

nanoString
A BRUKER COMPANY

Catalyze The Next Revolution Using Spatial Biology

CosMx® Spatial Molecular Imager

Map RNA and protein molecules in intact tissue with sub-cellular resolution

GeoMx® Digital Spatial Profiler

Combine high-plex & high-throughput spatial RNA and protein analyses

nCounter® Analysis System

Complete solution for digital detection and counting large sets of molecules

See the proteome in a way that has never been possible before

The Proteograph™ Product Suite

Seer offers the first and only automated platform for proteomic studies that enables sampling across the entire plasma proteome's wide dynamic range, allowing discovery of novel protein variants with the reproducibility and speed needed for high throughput studies.

MOLECULAR DEVICES

Advancing Discovery in Protein and Cell Biology

- Microplate Readers and Washers
- Cellular Imaging Systems
- FLIPR Penta
- Clone Screening
- Assay Kits, Clone Media and Reagents

Let our technology power your discoveries

The simplest, most powerful digital PCR workflow

A digital PCR specialist, with the aim to empower researchers with simplicity and ease of use.

From the Nio™ system, easy-to-use reagents, best-in-class consumables and analysis software, Stilla makes digital PCR accessible to researchers and laboratories around the world.

ZetaView® x30

A fast single particle characterization technique for virtually all types of nanoparticles suspended in media

Next Generation Nanoparticle Tracking Analyzer

The highlights of this technique are:

- Colocalization
- Characterization of nanoparticles in solution
- Measurement at comparatively low concentration levels (down to 105 particles per cm³)
- Single particle analysis resulting in high-resolution distributions
- Specificity with fluorescent detection

Pioneering Technological Innovations

Nova Biomedical has a 40-year history as the world leader in developing whole blood biosensors for clinical and cell culture / fermentation use

- Developing, manufacturing, and selling advanced technology blood testing analyzers
- Chemistry and Cell Culture Analyzers for Biotechnology
- Self-Testing Diabetes Meters

Quality in your hands

Solutions designed to advance customer research and quality control

Focusing on the use of new technologies in mechatronics, software, and glass manufacturing which leads to the increase of effectiveness and provides superior results.

Each solution is designed to the highest quality standards, making them reliable, safe, long-lasting, and environmentally friendly.

Let's Build Better Cells Together

Navigate your way from concept to clinic with MaxCyte

MaxCyte's unique electroporation technology was designed for safe, efficient and reproducible transfection to enable the development and manufacturing of next generation cell therapies.

Empower your research with ExPERT™ instruments.

Biological Irradiators Designed for Life Science™

X-ray irradiators designed for:
 Blood Irradiation,
 Small Animal and Cell Research,
 Insect Sterilisation, and
 Cannabis Decontamination

JASCO is a global leader in a wide range of innovative technologies using optical spectroscopy and chromatography

Spectroscopy

JASCO delivers an impressive range of optical spectroscopy instrumentation. They are compact in design, robust in operation and range from entry-level models to extremely sensitive research-grade instruments.

Chromatography

High Performance Liquid Chromatography EXTREMA 4500 Model is a conventional HPLC that aggregates the technology cultivated with EXTREMA 4000 Models into a compact casing with a width of only 15cm.

Next generation chromatography configurations have arrived.

Advion Interchim is a provider of analytical instrumentation (such as mass spectrometers & liquid chromatography) and laboratory consumables.

Delivering Tailored Solutions

In combination with the extensive consumable range from Interchim, Advion Interchim provide the best in-class solutions for any laboratory setting.

The Advion portfolio can be summarised into three categories

Mass Spectrometry

Purification

Consumables

Enhancing precision cancer diagnostics

Epredia is a Global Leader in Precision Cancer Diagnostics and Tissue Diagnostics offering the highest quality products to enable our customers to achieve diagnostic excellence.

- **Instruments:** Cryostats, Microtomes, Slide & Cassette Printers, Tissue Processors, Embedding Centres, Stainers, Coverslippers, and Cytocentrifuges
- **Consumables:** Slides (Superfrost and Superfrost Plus), Coverslips, Blades (MX35 Ultra), Cassettes, Cytofunnels and many others.

POWERED BY SHANDON MICROM MENZEL-GLÄSER Richard-Allan Scientific

Life Science Innovator Since 1966

CO₂ Incubators

Pharmaceutical Refrigerators

Biomedical Freezers

Ultra Low Temperature Freezers

Material Characterization at Its Best™

AMETEK Brookfield has been the world leader in viscosity measurement instruments for over 85 years. Their expanding portfolio includes viscosity, rheology, texture, powder, moisture, and toxic gas instruments for accurate material characterization measurements.

Brookfield instruments are ideal for a variety of applications in many industries.

Powder Flow Testers

DVPlus Viscometer

CTX Texture Analyzer

Autoclaves, Steam Sterilisers and accessories

- All British design
- More than 60 autoclave models
- From 40 to 700 litre chamber capacities
- Manufactured in Priorclave's London facility to UK standards
- Extensive range of options enables tailoring to meet your specific requirements
- Proven energy savings
- 10-year chamber warranty

Corning: High quality and innovative life science plasticware for cell culture, genomics, microbiology, liquid handling & filtration, CoolCell product range, laboratory equipment and Pyrex® laboratory glassware.

Falcon - A Corning Brand:

Life Science plasticware for tissue culture, genomics, microbiology and liquid handling.

Provide protein purification chromatography with ÄKTA systems & columns, resins for FPLC, Western Blotting reagents, membranes & imaging systems, Biacore consumables, Nucleic acid purification & amplification in the illustra range, Percoll & Ficoll cell density media and Whatman filtration products.

DWK Life Sciences: Leaders in the manufacture and supply of glass and plastic labware, cell culture apparatus and consumables, with brands like Duran®, Pyrex® and KIMBLE® dating back over 100 years providing solutions for Scientific Research, Pharmaceutical, Healthcare, Environmental and Industry applications.

- **DURAN®** Borosilicate 3.3 Glassware
- **WHEATON®** Cell Culture & Chromatography Solutions
- **KIMBLE® KIMAX® KONTES®** Glassware
- **PYREX®** Laboratory Glassware
- **QUICKFIT®** Ground-Glass Jointed Glassware
- **MBL® Volumetric Glassware**
- **SVL®** Screwthread Jointed Glassware
- **AZLON®** Reusable Plasticware

CareDx is a molecular diagnostic company focused on the discovery, development and commercialisation of clinically differentiated, high value diagnostic surveillance solutions for transplant patients.

Your Partner in the Service of Medicine

BAG Diagnostics provides test systems and reagents which always deliver the highest quality for your diagnostics. This quality ensures that people with impaired organ function, genetic disposition or transfusion needs are given the best possible starting conditions for their recovery/therapy.

Transplantation Diagnostics

Transfusion Diagnostics

Human Genetics

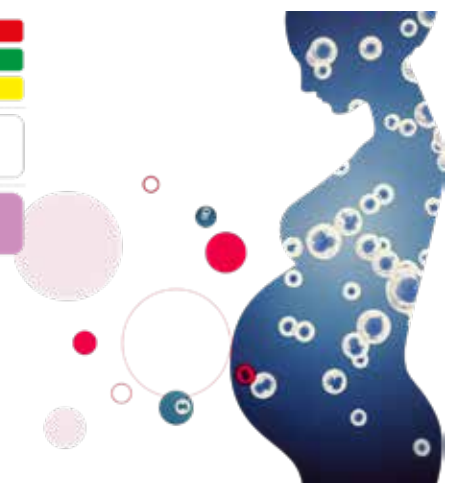

A completely new approach!

Next Generation DNA/RNA extraction kits providing more convenience, quality and speed.

By moving to a BioECHO extraction kit you are supporting

- environmentally friendly science: no harsh extraction chemicals
- sustainability: with 70% less plastics than standard Silica kits

Institute de Technologies Jacques Boy:
 Laboratory reagents for Blood Grouping and NIPT Fetal RhD Genotyping

In Vitro Diagnostic Medical Devices for immuno-hematology, cell-culture and molecular biology accredited laboratories.

Meso Scale Discovery® (MSD)

A global leader for innovative assays and instruments for the measurement of targeted molecules in biological samples.

MSD's proprietary MULTI ARRAY technology uses electrochemiluminescence to enable researchers to profile multiple biomarkers simultaneously in a single sample.

AliveDx

Driven To Provide Innovative Solutions

Products built with the patient in mind and designed to make labs more efficient and clinical decision-making more effective.

MosaiQ® - one of the first multiplexing and multimodality automated testing platforms revolutionizing clinical diagnostics worldwide.

Laboratory identification, safety labels, label printers

Flexible Solutions for Your Labeling Work

Molecular Testing Anywhere!

- 1 Load Sample
- 2 Insert Cartridge
- 3 Report Results

A leading point-of-care molecular diagnosis provider which is actively contributing to the global prevention and control of major communicable diseases such as COVID-19, tuberculosis and malaria.

CoolSafe 4 - 15L

An outstanding and versatile range of advanced bench-top freeze dryers.

HAMILTON®

Hamilton Company products provide you with unmatched accuracy and precision in your everyday laboratory tasks and workflows.

- The most comprehensive selection of syringes and needles
- A complete selection of silica and polymer based HPLC columns
- Automated intelligent diluting and dispensing with the Microlab 600 series
- Robust and intelligent in-line process sensors for pH, ORP, Dissolved Oxygen and Conductivity

analytikjena

An Endress+Hauser Company

Real-time PCR and gradient thermal cyclers, spectrophotometers, bio-imaging systems, macro and micro in-vivo live animal imaging systems, UV Products (transilluminators, lamps, crosslinkers and incubators), hybridisation ovens and PCR workstations.

G GRANT

Unstirred and stirred water baths, dry block heaters, shaking and ultrasonic baths, refrigerated circulators and vortex mixers.

Analytical balances, precision balances and industrial balances. Small equipment: pH meters, dry block heaters, shakers, magnetic stirrers and vortex mixers.

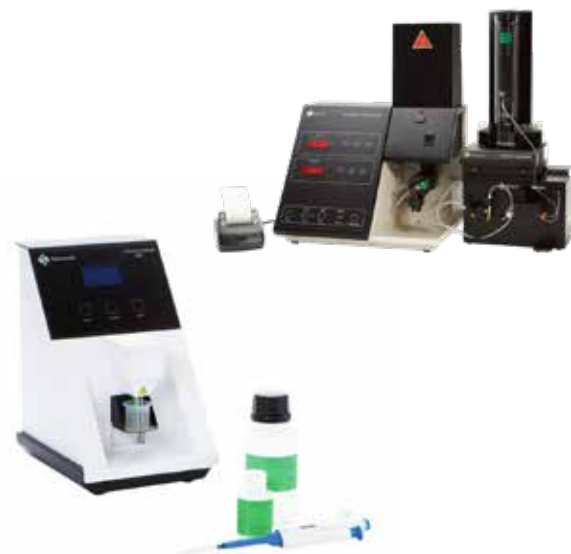

Mobile
Topping Autoclaves

Providing high quality instruments across various industry segments, including biotechnology, biological engineering, medical science and food development.

Liquid handling tips, microplates, tubes, cuvettes, pipettors, titrators, dispensers, micro & multi purpose centrifuges and thermomixers.

Flame photometers, chloride analysers, magnetic susceptibility balances, colorimeters and fluid bed dryers.

Miele

Laboratory glassware washers and disinfectors. Miele's range of instrumentation is designed to easily withstand the rigours of repeated cleaning whilst ensuring consistent results day after day.

IKA[®]

Magnetic stirrers, hotplates, vortex mixers, orbital shakers, grinding mills, dispersers/homogenisers, bomb calorimeters, rotary evaporators and viscometers.

METTLER TOLEDO

RAININ
Pipetting 360°

Analytical/top pan/moisture balances, pH/conductivity/DO meters, refractometers, densitometers, titrators, pipettes, dispensers and Rainin High precision liquid handling.

Reichert[™]
TECHNOLOGIES
Analytical Instruments

Benchtop and digital handheld refractometers, optical handheld refractometers, bilirubinometers, veterinary and clinical handheld refractometers & refractometer calibration oils.

LAUDA

High-Performance Temperature Control for biotechnology and pharmaceutical engineering

World leader in precise temperatures. Lauda Constant temperature equipment and systems are at the heart of important applications, contributing to a better future. They guarantee the optimum temperature in research, production and quality control.

BINDER

Best conditions for your success

Specialist in simulation chambers for scientific and industrial laboratories

INORGANIC VENTURES

Since 1985, Inorganic Ventures have perfected the process of manufacturing Certified Reference Materials, engineered to be stable, compatible, NIST traceable.

They are manufactured and tested under ISO 17034 & ISO 17025 guidelines (A2LA 883.01 & 883.02). Inorganic Ventures make almost any inorganic CRM for ICP, ICP-MS, IC, atomic absorption, wet chemistry, and QC applications, delivering ultimate standards across multiple industries.

Simport

Founded in 1975, Simport® Scientific is a leading developer and designer of quality consumable and reusable laboratory products. They offer reliable and quality products that are the basis of effective modern laboratories.

Ansell

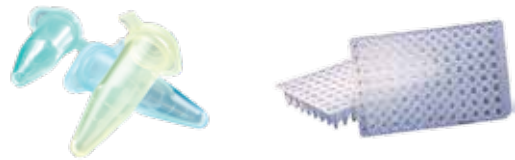

Experience a
HIGHER LEVEL of PROTECTION

Globally trusted gloves for life science, industrial research & clean rooms (PPE), Ansell Microflex & Touch N Tuff premium quality laboratory & examination gloves (PPE).

LabAdvantage

One Step Ahead

Pipette tips, barrier tips, PCR tubes, PCR plates, reservoirs and microcentrifuge tubes.

chem-supply

Chemical products and laboratory supplies with direct shipments to your laboratory to reduce product delivery time, great stock levels and full technical support.

Techno Plas

Excellence in Plastic Consumables & Specialised Moulding

Plastic consumables for life science, pathology, food & beverage, industrial, mining and environmental applications.

Laboratory Immunodiagnostic Products And Equipment

Enzyme Immuno (ELISA) Assays, Saliva Tests, Tumour Marker Assays, Chemiluminescences Assays, Rapiidscreen Assays.

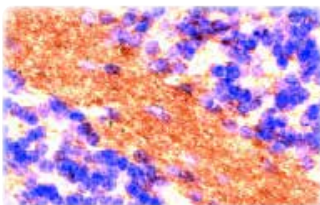

Answers in Life Science

Assays measuring human complement, auto-immune markers and hormone analytes (Euro Diagnostica have changed their name to Svar Life Science AB).

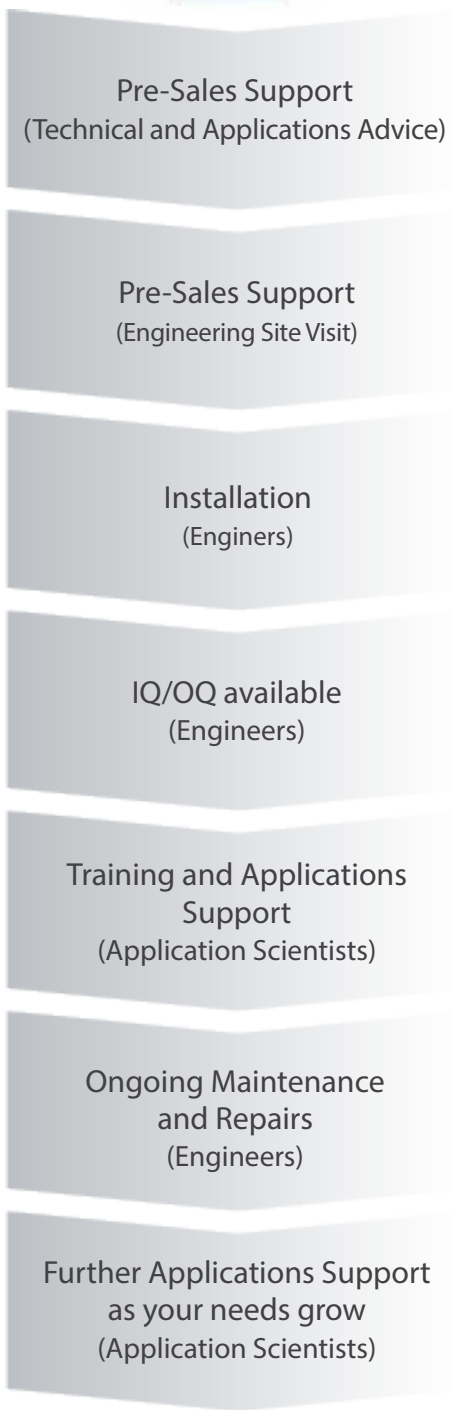

The Power to Question

Offer a huge range of Monoclonal antibodies and mouse binding proteins, CRISPR & Biochemicals. Many of the mammalian antibodies are reactive with equine, bovine, canine, feline, caprine, porcine and bovine proteins.

A global leader in assay kits, reagents and enzymes, offering high-purity, ultra-stable products used in analytical testing across a range of industries - from cereals and food manufacturing, to biofuel and animal feed, to wine, beer and dairy products.

Protect Your Investment!

Support available every step of the way with Field Service Engineers and Application Scientists

Improve your lab productivity and accelerate your research.

Here at Bio-Strategy we pride ourselves in providing:
 Country-Wide Coverage | Factory Trained Engineers and Scientists | Original Spare Parts

FIELD SERVICE SUPPORT
 Installation | Compliance | Maintenance

Get the most return for your investment

The condition, life span and accuracy of instruments is critical for the most essential tasks in the laboratory.

Bio-Strategy's Technical Service is designed to help keep your laboratory instruments precisely up and running which gives you peace of mind.

Peace of mind

We do this by offering complete service solutions from installation, after sales service and compliance to the supply of original spare parts.

Our large team of factory-trained engineers covers all regions of Australia.

Certifications

- ISO-9001:2015 Certified
- IQ/OQ

Service Agreements*

- Tailored to customer's needs on a wide range of supported equipment
- Comprehensive Agreements covering service and parts
- Standard Agreements including scheduled Preventative Maintenance services and up to 10% off parts and breakdown labour
- Advanced scheduling of Preventative Maintenance

*initial checks on equipment out of warranty may be chargeable

Remote Support

- In-house engineer for phone support
- Remote support diagnostic capabilities
