Biomedical -30°C

Only \$6,848

Usually \$8,560

Code: SANYMDF-MU539D-PE

479L

Temp Range: -20°C to -30°C

FCO Plasma -40°C

Only \$6,168

Usually \$7,710

Code: SANYMDF-MU549DH-PE

489L

Temp Range: -20°C to -40°C

Plasma Storage ARTG# 390931

Designed for storing vaccines, diagnostic samples, enzymes, culture media, reagents, and test samples.

Two 235L independent chambers with separate temperature controls for storing samples at different preservation temperatures within one unit.

Offering environmental benefits and adaptability while ensuring the quality of samples.

Features include height-adjustable shelf trays, separate top and bottom chambers with independent temperature settings, and individual doors to prevent cold air leakage.

Ref. Code: SANY-Dual

VALID UNTIL: 31 Dec 2024
