

It Is the Perfect Time to Upgrade Your Current Rotavapor® to an R-300!

Your Rotavapor® is still working and you don't want to waste it?
Don't worry, you can recycle your current glassware, pump and vacuum controller!

R-300 will offer you:

- More convenient: New durable vacuum seal and versatile Combi-Clip
- More flexibility: Modular adapts to your needs
- More possibility: Diversity of accessories enables any application

Experience maximum convenience by adding BUCHI Interface controller:

- Central control: all parameters including vacuum and chiller settings in one single place
- ECO and Dry Mode, Solvent Library and dynamic distillation: you have many options to choose from
- App based off-site monitoring optimizes the time-efficiency of the process

Don't miss this opportunity!

Contact us, we will assess your current Rotavapor® and we can consult you on the best solution for you!
